

# The Gift of Life Insurance

## Cash Value & Life Insurance

Many parents and grandparents find it beneficial to purchase a policy for their child early on to allow it to build cash value and to teach their child to be financially responsible.

The cash value can be used later to help defray the costs of education or other necessities.

It also ensures that their child will be properly covered in the event that they develop health problems later in life.

*Flip flyer over for sample premiums.*

### How Coverage Works

You can purchase a whole life cash value life insurance policy for your child.

Having a cash value whole life policy from an early age will ensure that the child is always covered, and will negate the possibility of future medical issues making it difficult for the child to obtain coverage.

# The Gift of Life Insurance

It is a wise financial decision to purchase life insurance for children. A lifetime of coverage can be attained at a very low cost. At a young age, premium is locked in and will not increase. A parent or grandparent can transfer ownership once the child reaches adulthood.

Children are also eligible for the many great membership benefits with 1891 Financial Life such as education grants and college scholarships.

## Look at the affordable cost of protection
