You may want to contact that company or its agent for further information and advice or discuss your purchase with other advisors. The information you receive will be of value to you in reaching a final decision.

If either the proposed policy or the existing insurance you intend to replace is a participating policy, you should be aware that dividends may materially reduce the cost of insurance and are an important factor to consider. Dividends, however, are not guaranteed.

You should also recognize that a policy which has been in existence for a period of time may have certain advantages to you over a new policy. If the policy coverages are basically similar, the premiums for a new policy may be higher because rates increase as your age increases. Your existing policy may have options which are not available under the policy being proposed to you or may not come into effect under the proposed policy until a later time during your life. Also, your proposed policy's cash values and dividends, if any, may grow slower initially because the company will incur the cost of issuing your new policy. On the other hand, the proposed policy may offer advantages which are more important to you.

Our new life insurance policy will allow credit for the period of time that has elapsed under the replaced policy's or contract's incontestability and suicide period up to the face amount of the existing policy or contract. With regard to financed purchases, the credit may be limited to the face amount of the existing policy that is reduced by the use of existing policy values to fund the new policy or contract.

If you are considering borrowing against your existing policy to pay the premiums on the proposed policy, you should understand that in the event of your death, the amount of any unpaid loan, including interest, will be deducted from the benefits of your existing policy thereby reducing your total insurance coverage.

After we have received your application and notified the other insurance company you will have thirty days from the date the proposed policy is delivered to you to cancel the policy issued on your application and receive back all payments you made to us.

We are required by state regulation to delay the issuance of the policy for which you are making application for thirty days from the date on which we send your existing insurer notification that their policy will be replaced.

CAUTION

If, after studying the information made available to you, you decide to replace the existing life insurance with our life insurance policy, you are urged not to take action to terminate or alter your existing life insurance coverage until after you have been issued the new policy, examined it and have found it to be acceptable to you. If you should terminate or otherwise materially alter your existing coverage and fail to qualify for the life insurance for which you have applied, you may find yourself unable to purchase other life insurance or able to purchase it only at substantially higher rates.

Owner's Acknowledgement. I have reviewed and understand the potential advantages and disadvantages of replacing my current policy and I wish to proceed with replacing my current policy. If this replacement involves a loan or partial surrender from an existing policy, this will result in a reduction in values in my existing policy. In addition, with respect to life insurance policies, loans or partial surrenders may result in additional payments being required to keep my existing policy in force. Policy loans also reduce the available death benefit and incur interest charges.
